This small blueprint is about making money on the hot new MySpace..

I'm not going to add a lot of fluff and filler here, just the down right basics on what you need to do right now to make money on MySpace!

The beginning:

Ok, first you need to figure out a few things, there is several ways you can go about creating money for yourself on MySpace.

But the easiest way is finding a niche you are interested in, something you know something about that you may be able to help other people with.

But you also need to make sure it is a big enough niche to make money from, and to do that you need to check out the groups and forums on MySpace, which are here:

Groups:

<http://groups.Myspace.com/index.cfm?fuseaction=groups.categories>

Forums:

<http://forum.Myspace.com/index.cfm?fuseaction=messageboard.categories>

Now that you have determined that your niche could be profitable, or else found one that you think will be you need to register as a member.

First thing you need to do is join MySpace here:

<http://collect.Myspace.com/index.cfm?fuseaction=Join>

Now that you are a member you need to fix up your profile, make it to where you look like an expert in your niche, such as make everything about your love or passion for your niche.

For this example I am going to be referring to a dog training niche, I would write my profile around that, let people know that I am into dogs and know what I'm talking about when it comes to dogs and training and so on.

Ok, it asks you to Pick your MySpace Name/URL! Just below where your picture is located, click that link and pick your MySpace name/url.

Make sure you pick something related to your niche if possible, so for the dog training site I will be trying to get a name that has dog training in it; it just so happens I was able to get **mydog_training** so now my new myspce url is MySpace.com/mydog_training.

So then you need to edit your profile, you need to make it look as good as you possibly can, add as much details as possible to your "about me" and "personality" section.

Add a few pictures of you or something related to your niche, add a layout so not to use the plain background that MySpace gives you as this is usually what spammers use you can get free layouts from this place:

<http://www.freeMySpacelayouts.org/>

Or you can search google for "free MySpace layouts", you can see my MySpace profile here: http://www.Myspace.com/mydog_training

Just add a little "umph" to it so it looks like you are here to be friends and so on, we have to slowly spring the advertising on so not to spook anyone ☺

Ok, you have your niche, you got your profile up and looking good, now you need to find a product to promote, there is several ways to go about this..

You can do affiliate programs or the google adsense program, where you get paid per click from putting ads on your site, you can read more about that here:

<http://www.internetmarketingcircle.com/advertising/AdSense.html>

Any route you go just make sure it will be worth it, I suggest you sign up for clickbank and promote products from their database of products:

<http://www.clickbank.com>

You can do several things to promote your product or adsense site such as jokes, riddles, petitions, and so on, I will detail more a little bit later, but lets say I'm going to do an adsense site with an affiliate product on dog training, I will go to groups about dogs, join them and start posting in the forums and message boards, I will only post helpful advice or just brew up some good ol' chats, but I don't advertise, no I just make friends.

Note: There is a product out called Badder Adder add thousands of MySpace friends and automatically send messages, comments, bulletins and event invitations and so on, this is a tool to speed up the adding of friends, but only add about 350 per day to be on the safe side. I'm not saying to get this tool, I'm just telling you the more friends you have the quicker you can start the money coming in..

Now once you start posting you will be getting some friend requests, and profile views, so now we add a link to our site or affiliate page in the "about us" section, don't make it blatant just a smooth way to get people to view it.

While we are building our friend list you will want to create a group about your niche, they make you wait 7 days before you can create a group so we can start to work on our blueprint to make the money.

1st way to make money: Petitions

Ok, this one is really simple and is a way to make money daily via adsense or an affiliate program and requires about 30 minutes a day, for this one you can make a petition or a survey and have people go and sign it or vote which ever you choose.

What you need to do once you build your list of friends(I suggest you at least have 800 to 1000 friends), is start posting bulletins, make it something controversial works best but it can be anything, so if it was for my dog niche I would do something like maybe for pit bulls, I could do a petition to ban or not ban the pit bulls such as the title could be:

Subject: Help Stop the Pit Bull Breed Ban Petition!

Then I could go on to say in the body:

Body:

Aggressive dogs are found among any breed or crossbreed; and breed specific legislation and breed bans are not effective solutions to the problem of dog attacks; and the problem of dog attacks is best dealt with through a comprehensive program of education, training and legislation encouraging responsible ownership of all breeds, so I plead that you stop by my petition site and sign it...

[Click here](#) if you want the freedom to breed your dogs..

Note: "The above link will go to the petition on your site"

Then on the petition page of your site you could have a petition script, which you can find here:

<http://www.google.com/search?q=petitionscript&hl=en&lr=&rls=GGLG%2CGGLG%3A2005-49%2CGGLG%3Aen>

Try to find a good one, here is the one I use and recommend:

<http://petitionscript.net/phpPETITION2/index.php>

You can then write the petition up and start posting on your bulletin board and post it to the related bulletins in the groups area of your niche. You can start blogging about it on your MySpace blog.

To learn a little about how to write petitions you can view this resource:

<http://www.petitiononline.com> and go through and see how people are writing them up, and here is another resource:

<http://www.google.com/search?result&cd=1&q=how+to+write+a+petition&spell=1>

On this site is where you will add your google adsense or affiliate program or whatever, it's not uncommon for someone to make \$50 to \$100 per day if you really learn it and spend the time to make it a good petition..

Some more ways to boost the traffic would be to do a press release on the petition, post in related forums about it call your local radio or TV station, if it is controversial enough it will start a viral effect you won't be able to stop the traffic.

The same steps can be taken for a survey, or voting system as well.

Riddle Me This Riddle Me That - The 2nd way to make money:

This next tip is a way to make money using riddles, brain scramblers, or jokes ☺

In this step you can use the same friends from the petition profile or you can create a new one (I prefer to create a new one), and get members from all walks of life, you don't have to be picky picking these friends as the market is more broad, I mean who doesn't like jokes and riddles?

Do the same in this profile as you did the last, but make it more fun based, exciting, and COOL!

You want people to ADD you! So make them want to be your friend ☺

If you use the badder adder you can find a popular profile, of someone and start adding their friends, this is the most simplest and fastest way to collect friends.

If you use it add a message so it seems as though you are writing them personally.

Once you start collecting friends you can start commenting on others MySpace, pictures and so on, anyway to get your profile in front of a lot of people. Add something that's either controversial or funny so people will send their friends to your profile.

Once you start getting friends, you can post bulletins, and start posting in the group bulletins.

Here is what you can post, this is a riddle I found but you can use whatever you want:

Subject:

\$ THE MISSING DOLLAR \$

Body:

Three friends check into a motel for the night and the clerk tells them the bill is \$30, payable in advance. So, they each pay the clerk \$10 and go to their room. A few minutes later, the clerk realizes he has made an error and overcharged the trio by \$5.

He asks the bellhop to return \$5 to the 3 friends who had just checked in. The bellhop sees this as an opportunity to make \$2 as he reasons that the three friends would have a tough time dividing \$5 evenly among them; so he decides to tell them that the clerk made a mistake of only \$3, giving a dollar back to each of the friends.

He pockets the leftover \$2 and goes home for the day! Now, each of the three friends gets a dollar back, thus they each paid \$9 for the room which is a total of \$27 for the night. We know the bellhop pocketed \$2 and adding that to the \$27, you get \$29, not \$30 which was originally spent. Where did the other dollar go????

[Click here](#) to find the solution 😊

Note: The above link will go to your site where they can get the answer.

On your riddle or joke page you can have this text:

**“Keep Reading To Find Out How To Get
The Solution To The Missing Dollar
Riddle!”**

“Then have an adsense block here”

You will then suggest to them to add you as a friend, and post the riddle for their friends to see in their bulletin board...

Also you can make a code for them to just copy it and paste it.

Then you can have a link to another page with the solutions such as:

[CLICK HERE FOR THE SOLUTION!](#)

Here is an example of one I did:

<http://MySpace.relatingtoall.com/MySpaceriddle.html>

Feel free to copy this example, or layout...

For this to work really well, you need to make up new riddles, jokes and so forth keep them going every day, and post them several times a day and it won't be long you will be making a good amount of money just from this one tip!
